

Equality Objective 2022-2025

The School has a Specific Duty to publish at least one measurable Equality Objective to focus on for a three-year period.

Myton School's equality objective for 2022-2025 is **"To narrow the performance gap for boys, especially higher prior attaining boys (HPA)"**.

This is at the heart of our School Improvement Plan (SIP) and focuses on the progress of all groups of students within our community.

This will be measured through a variety of methods which include:

- data collection and Head of Department analysis;
- monitoring through targeted work with HPA students;
- student voice;
- lesson observations, showing active participation and high standards for all boys;
- book reviews for HPA boys, to ensure the work is in-line with, or exceeding their female peers.
