

# Geography

## Year 7

### Fantastic Places

An exploration of continents through map skills

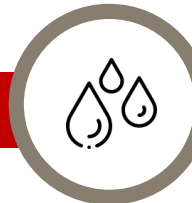

### Sustainable Communities

Exploring decisions behind the new builds around us

### World of Walls

Exploring conflict and migration

### Water on the Land

Exploring the relationships between water, people and landscapes

### Rainforest Realities

Exploring life, people and challenges in Tropical Rainforests

### Population

Exploring where and how people live

## Year 8

### The Middle East

Exploring opportunities and challenges in this region

### Oceans

Exploring the natural ecosystems and the human risk associated with it

### Tectonics

Exploring causes, effects and responses to earthquakes and volcanoes

### Rivers

Exploring how water shapes landscapes and human activities

### Coasts

Exploring the power of waves on places and people

### Geopolitics

Examining the determinants of a country's international power

### Developing Africa

Exploring opportunities and challenges in this continent

## Year 9

### Globalisation

Exploration of the causes and consequences of Fast Fashion

### Climate Change

Exploration of the causes, effects and responses to Climate Change

### Weather and Climate

Exploration of the UK's weather and how we measure it

- Literacy
- Sustainability
- Ecosystem
- Globalisation
- Erosion
- Urbanisation
- Development
- Spatial
- Place
- Mitigation

### Resource Management

Examines how the unequal distribution and consumption of food, water, and energy resources impact societies

## Year 10

### Changing Economic Worlds

Global disparities in economic development and quality of life

### Natural Hazards

Extreme natural events that pose risks to people, property, and the environment

### Living World

Interdependence of living/non-living components, adaptations of plants and animals, and impacts of human activity

### Physical Landscapes - Rivers

Processes, landforms and management associated with river systems in the UK

## Year 11

### Fieldwork

Embedded fieldwork and investigations on sustainable transport and rivers

### Physical Landscapes - Coasts

Processes, landforms and management associated with coastal systems in the UK

### Urban Issues

Rapid growth of urban areas globally and the opportunities and challenges this presents

### Decision-Making Exercise

Preparation of an unseen booklet of material that links to a taught theme

- ### Careers
- Urban Planner
  - Environmental consultant
  - GIS analyst
  - International development officer
  - Risk analyst
